BOW ISLAND REVIEW

**Farmers! be Sure
to put down Poison Bait before Seeding**

Bow Island!

Miss Veale of Edmonton who is
visiting Mrs. Lankke will return to
Edmonton this week

Mr. Simpson went to Pincher Creek
on Saturday for the harvest

Mr. Hancy of the Canadian General
Electric Co. of Calgary is a business
visitor in town this week

Mr. Jas. R. Perry was a visitor in
Lethbridge last week

Mrs. Cullen and family were visitors
in Lethbridge last week

Miss Whitney of Calgary is visiting
her mother in town this week

Mr. H.R. Miles, Divisional Engineer
of the C.P.R. was a business visitor in
town on Wednesday

Mr. J. Pollitt returned to Bow
Island last Saturday morning from
Medicine Hat where he has been for
the past week under the Doctors care
and we are glad to report he is feeling
better now

Father McCoy's uncle is in town
from Mayo, Quebec

Mr. G. Porter of Lethbridge spent
Wednesday in town

Mr. Harper of the Remington
Typewriter Co. was in town this week

Mr. and Mrs. Dookey of Whitla
where motoring visitors to Bow Island
on Sunday last

Mr. Dwight Sager and Kenneth
Sager from Columbus, Ohio, passed
through Bow Island on Friday in a
Ford Car coming into Canada by
North Portal. They are going through
to Coultis and are returning to Alberta
for the harvest

Mr. D. J. Slattery, engineer from
Calgary was a business visitor here on
Friday last

Constable Bradner was a business
visitor to Seven Persons on Saturday
last

Mrs. Parsons of the Hazel Bluck
Medicine Hat leaves very soon on a
visit to her mother in the States, she
will visit Nebraska, Chicago and other
intermediate points

The Woman's Missionary Society of
Bow Island United Church met in the
Church on Wednesday afternoon
August 18th. The Program for this
meeting was the report of the delegate
to the branch meeting which met in
Calgary in June. Mrs. Prose gave a
very thorough report and it is to be
regretted that more were not present
to hear this report. It was decided
to take up the new study book for this
year "Canada's Share in World Tasks"
This book deals with the work that
the five large Protestant Churches are
doing in the Mission Field and should
be of interest to all.

Mrs. Hockin, corresponding secretary

NOTICE

U.F.A. and U.F.W.A.

Pres. I.D. James Pres. Mrs. H. Schenck
Sec. G. Monds Sec. Mrs. G. Calder

Will meet on Saturday
August 27th.

Miss Marion Dewey was visiting at
the home of Mrs. Halloran a few days
last week

Born—to Mr. and Mrs. Perry Duffy
a daughter, on Thursday 11th. August

CLOUDBURST

A perfect Cloudburst visited 'Bow
Island' last Monday night—the rain
commenced about quarter past one in
the morning and came down in dense
sheets of water for over an hour, after
that it gradually lessened

It is reported that at least 3 inches
of rain fell and the land was soaked
down to 12 inches

This rain should have come two
months ago and then we would have
had some very heavy crops with the
result of lightening some of the farm-
ers heavy burdens

Still we are thankful for this Cloudburst as it should ensure some good
feed for our stock this coming winter

St. Michael's Church

Mass will be celebrated at 11:30 a. m.,
on Sunday August the 21st.

United Church Bow Island

August 21st. Sunday Services

Bow Island United Congregation
11 a.m. Preaching at Haig

3 p.m. Preaching at Sunny Meads

8 p.m. preaching at Bow Island
Everybody is cordially invited

Sunday School Session
11 a.m. at Bow Island, Haycroft and Haig

2:30 p.m. at Fairlight
C. G. Hockin Pastor

Rev. F.R.B. Leacroft who is in
charge of the Parishes of Tabery,
Kinneburgh, Grassylake, Burdett,
Bow Island and surrounding Districts
will be in Bow Island the last Sunday
in each month and will be staying at
the Hotel here, where any messages
can be sent or phone calls, Highgate

In any emergency as Sickness,
Infant Baptism etc. the Rev. F.R.B.
Leacroft can be reached by phone
early in the morning or late in the
evening by calling up 124 Tabery. During
the day Rev. Leacroft is always
busy with his outside parish duties,
but he is most anxious to assist in any
case he may be desired

Polish-German Question Still Causes Division Between Allied Nations

Paris.—The French and Polish ministers are far from agreement upon the new line dividing the Upper Silesia, drawn by the experts appointed for the purpose. There fore, the work of the Supreme Council, which has had under advisement the Silesian problem, cannot be completed for the present, nor is it possible to forecast the outcome of the differences which have arisen over this Silesian Polish question.

The position of the French Government as explained by M. Briand is substantially: "The experts have presented their conclusions, and have said to the Supreme Council, 'Now decide.' We do not decide the same way as the British, and disagreements have occurred. The experts' new line which was arrived at by a majority vote has not been agreed upon by the council, and has been referred back to them, and they have replied: 'We shall come back before the council if we can reach a unanimous agreement.'"

The French experts have studied the line proposed by Mr. Lloyd George.

According to their calculations this line would give 200,000 Polish votes to Poland and 270,000 to Germany on the one hand, and 100,000 German votes to Poland and 600,000 German votes to Germany on the other, whereas the Silesians give 60 per cent. of the votes to Germany and 40 per cent. to Poland.

Premier Briand informed the British delegation that he would be willing to accept, as a last resort, the Silesian line in Silesia, according to the Havas Agency.

This line gives Poland the western part of the industrial district, notably Gleiwitz, Zabrze and Tarnowitz.

Butter Competitions

Edmonton Dairy Secures the Highest Score in Dominion Contest.

Ottawa.—The quality of the butter submitted to date by the provincial creameries in the Dominion educational scoring contest is better than any in any previous year, according to the Dominion Dairy Commissioner, J. A. Biddick.

Edmonton City Dairy secured the highest score of any sample since the competition commenced in 1919, with 98 points for their July sample. The highest scoring sample for June was supplied by the Central Creameries, Calgary, with 97.5 points, and for May by the Shook Lake Creamery of Manitoba with 97 points.

Fire Visits Strathclair.

Strathclair, Man.—A Chinese laundry, a butcher shop, a general store, and a hardware store in the business district of Strathclair have been destroyed by fire. The loss will be about \$25,000, partly covered by insurance.

Second-hand experience is almost as good as new, and it costs less.

Allies Will Send Relief To The Starving Russians

Lloyd George Has No Admission For Soviet Government, But Will Act on Humanitarian Grounds.

Paris.—The United States ambassador took part twice in the sessions of the Supreme Council, once in reply to Premier Lloyd George that he agreed that the traditional policy of the United States gave traders the right to sell arms to either belligerent in the Near East, and again, in reply to enquiries by the prime minister respecting Secretary Hoover's Russian relief plans.

M. Briand, the French premier, began the discussion of the Russian famine by saying that the Russian people who had fought with the Allies in the beginning of the war might justly look to them now for help.

"I propose that all the Allies join with the United States and the other nations who are interested in the Russian famine in the administration of relief through Red Cross societies and other private sources," said M. Briand.

"I heartily agree to this," exclaimed Lloyd George, "but I wish to point out," he added, "that such efforts could not reach many of the sufferers. The Red Cross cannot perform the miracle of the five loaves

Loyalty of People of Dominion King George is Grateful For Work of Premiers at Conference.

London.—His Majesty King George in his reply to the address from the Imperial conference, emphasizes the fact that he had striven and ineffable proofs from the peoples of the dominion of their loyalty and devotion in the enthusiastic and touching receptions invariably given on the several occasions of his visit to different parts of the world where the British flag flies, proofs which had been renewed in the remarkable demonstrations of welcome and goodwill to the Prince of Wales during his visit of the past three years. Furthermore, where could one find such ample testimony to the common allegiance to empire and sovereign as in the noble self-sacrifice during the four and a half years of the World War?

His Majesty added: "I followed with keen interest the deliberations of the conference. These meetings and the exchange of views between the representatives of the various dominions which they represent, upon the many problems affecting the common interest of the British peoples, are essential to the unity and welfare of the empire and the general peace of the world. Every facility must be given for such periodical meetings, and to enable them to be held in person, to the end that they may discover an improved means of inter-communication between all parts of the British Commonwealth."

"I know the work of the conference has been strenuous, entailing severe demands upon all concerned, but their time was well spent in advancing, further along the road of progress and development."

"I heartily thank them, on my own behalf, and that of the Queen, for the address. We wish Godspeed to those who are leaving England and a safe and happy return to their respective homes and families. More than ever do we follow with feeling of affection, the welfare of our people at home and across the sea."

Five Japs Killed in Manchuria

Police Attempted to Enter Japanese Premises Without Permit.

Honolulu, T.H.—Five Japanese were killed and 17 severely injured in a fight between 70 Japanese residents and 50 Chinese police at Chin Chang, Manchuria. A Tokio dispatch says the disturbance arose out of attempts by the police to enter Japanese premises in the city without a permit. The foreign office has instructed Minister Ogata to protest to the incident and protect to the Peking Government, it appears that it was provoked by the Chinese.

Proclaims Holy War.

Bulletin: Angora, Anatolia.—A holy war has been proclaimed by the King of the Hedjaz, to assist the Turkish Nationalists in their fight against the Greeks in Asia Minor.

Two fishes. Relief must be organized immediately on a great scale not only for the sake of Russia, but for the sake of the world, because typhus, cholera and other plagues incident to famine would come more from the East than from the West.

"I have no admission for the Soviet Government," Lloyd George continued, "but relief is impossible without its co-operation, inasmuch as it controls transport and all of the official machinery. No one could help without Russia without its permission. I think for this purpose, and this purpose only, the Allies should make some arrangement with the Soviet Government."

Lloyd George said he had been informed that some of the Russian provinces had surplus grain, but the peasants would not release it except in exchange for goods which they required. He suggested that the Supreme Council consider at once whether steps could not be taken to obtain grain in this manner for the famine area. The question was not a political, but a humanitarian one.

"When your neighbor's house is burning," he concluded, "you don't ask questions, but try to save it."

Ample Harvest Help

Winnipeg.—With approximately 25,000 harvest hands required for Manitoba and Saskatchewan already in the west, it was decided at a meeting of employment officials here to notify the railway officials that further excursion trains from eastern points should be held up, pending a survey of conditions. Whether the west has sufficient farm labor or not will be decided in the next day or so. Surprise was expressed by local employment officials at the expeditionary manner in which the railways had dispatched so many harvesters from the east.

Want Teachers of High Ideals

Premier Drury Delivers Pointed Address at Teachers' Conference.

Toronto.—"Heaven save us from the hide-bound teachers. Heaven save us from the fellow who would rather parse a word than see a beautiful line of literature, and save us from the fellow whose only idea is examinations," exclaimed Hon. E. C. Drury, premier of Ontario, extending a welcome on behalf of the province to the Imperial conference of teachers in Convention Hall.

"The great danger of the teacher is that of yielding to a suit," continued Mr. Drury. "What we need is teachers of high ideals and broad vision who recognize the rights of humanity to something of its own development. Nations have fallen because of wrong teaching in the schools."

A lively feature of the session was an animated discussion which followed an address on the celebration of Empire Day by Col. T. E. Perritt, principal of the provincial Normal School, Regina, who went overseas as officer commanding the 68th Battalion, leaving his sight in the war and returning to fill his former educational position in Western Canada.

Col. Perritt advocated the addition of another day to the calendar of school holidays, maintaining that the Imperial gatherings there will be some sort of co-ordinated effort and ideas together with a national conference, at which the Minister of Labor will probably preside, and at which plans for securing employment for the workless on a national basis will be formulated.

Quebec Town Destroyed by Fire

Hundreds of People at Aylmer Are Rendered Homeless.

Ottawa.—Fire of a disastrous character, fanned by a strong wind from the southwest, swept Aylmer, Que., this afternoon, and left in its wake a parched and blackened ruin of what was formerly a quiet and picturesque town.

At least one death was caused by the fire, seven hundred persons were rendered homeless and the property loss is estimated by Mayor Nash of Aylmer, at \$750,000. Most of the principal buildings in the town were razed by the flames and the homes of some 125 families lost.

Locate Rich Iron Prospect

Find Near South Ste. Marie Most Promising in Canada.

Sault Ste. Marie, Ont.—What is characterized as the most promising iron prospect in Canada has been located 67 miles north of Sprague and six or seven miles south of the first reserve in the Blind River country, 100 miles south of the Sault, by Col. J. A. Currie, of Toronto, M.P., for North Simcoe, and Archibald Campbell.

The find was located about a mile and a half from the site of the discovery, and natives of the vicinity, who were familiar with the iron traces in the find, maintained that it had come down from the Hudson Bay district.

A. Drew, Publisher of The Echo, Dominion City, Man.

Wheat Board Defunct

Finishes Its Activities After Twenty Years' Existence.

Winnipeg.—On the second anniversary of the foundation of the Canadian Wheat Board a meeting of members terminated the board's activities. No statement was given out at the close, members deciding that it would be better to refrain from doing so, notwithstanding a promise was made that a statement would be given. The board came into existence August 1, 1919, and was formed for the purpose of assisting the farmers to market their grain under protective measures.

Employment Plans Meet With Response

Minister of Labor Trying to Relieve Unemployment Situation.

Ottawa.—The request of the Minister of Labor that provincial authorities call conferences of all interested to deal with the unemployment situation, has been met with a response. At the Dominion, judging by replies reaching the department here, it is expected that after the holding of provincial gatherings there will be some sort of co-ordinated effort and ideas together with a national conference, at which the Minister of Labor will probably preside, and at which plans for securing employment for the workless on a national basis will be formulated.

Vacancy for Lieutenant-Governor.

Ottawa.—The appointment of a successor to Sir James Aikins, lieutenant-governor of Manitoba, whose formal term of office expired on August 8, awaits the return of Premier Meighen.

Sir George Foster, acting premier, when asked about the appointment, said that the matter would be dealt with by Mr. Meighen. He gave no opinion as to the probable chance for the position.

To Unify the Laws Of the Provinces

Ottawa.—An attempt to unify the laws of the various provinces, with the exception of the province of Quebec, which has been under consideration by a committee for some time, will be reported upon at the annual meeting of the Canadian Bar Association which opens here on September 6, and continues until September 8. Each province, with the exception of Quebec, is represented by a commissioner. The exception on the part of Quebec is due to the radical differences in its insurance on the maintenance of its civil laws granted under the B.N.A. Act.

The Life of Ne-Gua-nan-I-sew

By O-G-E-MAS-ES (Little Clerk).

(Continued)

About this time, now in the nineties, a young colored doctor from Chatham, Ontario, had settled in Kingston, some thirty miles west of my hometown, and was practicing his profession there and visiting the scattered settlements with great success. This was glad news for me and I drove up and called on him at the first opportunity, and we soon became fast friends. He was much interested in the Indians and when I told him of the deaths of Ne-Gua-nan-I-sew's children and described the symptoms, he made me promise that if another child was born to this couple it was to be brought up to him for examination. On my next visit to Ne-Gua-nan-I-sew and his poor wife they listened with the greatest eagerness to my tale of the new doctor, and it was rather amusing when I described his clinic. Ah, they said, if a white doctor's medicine is strong, why a black doctor's must be stronger. However, they promised faithfully if a new baby came they would surely follow my advice, or as he said, "I will be there."

A year or so elapsed and in came a child with a fine little baby girl, named in the Moss Bag and resembling her mother very much. Both going to school, the name Ne-Gua-nan-I-sew, so we all went up to Kingston, I being an interpreter. After a careful examination the doctor gave certain prescriptions and these they promised faithfully to carry out. Then in three months time, and in fact very soon, the child was at last a year, they were to bring the babe for another medical examination. At about the age of two the doctor performed a slight operation for tubercular glands. The child threw, the parents were immensely grateful, and this girl baby gradually developed into a fine handsome young woman who went to Emmanuel College. She was the pride and delight of her parents and their friends, and she was a Christian.

In the meantime, two other children were born to Ne-Gua-nan-I-sew and being duly treated by Dr. Shadd, grew up fine youngsters. A happier, more contented Indian family you could not find, but, alas, the sequel of this true tale proved that in the midst of life we are in death.

The season was early fall, following an extremely dry summer, and Ne-Gua-nan-I-sew and his family were camping in the hills south of Esholm. The country was broken and brile, with a tremendous growth of grass and much dead old bottom. For days the atmosphere had been unusually clear, and a heavy gale of wind arose and Ne-Gua-nan-I-sew and his family were camped in the open country, but in every direction they tried to proceed, fire or dense smoke headed their backs. Finally, in despair, he set all hands to work to clear a path as possible, also to dig a hole (as the only tool) to shelter them if the fire swept over the camp. Then he hoisted and threw his two ponies and covered their heads up with a blanket. How they all worked in spite of the awful heat and suffocating smoke, then with a roar the actual fire was on them and one by one he saw his dear ones become reckless of his own life. He clapped them in his arms to extinguish the burning garments, but his loved wife, his brilliant daughter and the two young children all perished.

Six U.S. Prisoners Released.

Riga, Latvia.—Six United States prisoners in Russia have been released by the Soviet authorities and have arrived at Narva, Estonia, in fair condition. The six were Emmitt Kilpatrick, Weston, Bester, William Fitch, X. B. Kalamaitian, H. J. Lann and Russell Fallinger.

A town cannot grow without business. By helping your local dealer you assist the community.

Fire Raging in Russian Oil Wells

Plants Cannot Be Extinguished and Loss Will Be Disastrous.

London.—Fires are raging in 18 oil wells in the oil fields of Baku, the great oil centre in Asiatic Russia, according to advice from Riga, Estonia, by the Central News Agency wires.

There appears to be no means of extinguishing the conflagration, the massive added pressure of the oil well will be disastrous. The disaster will be more keenly felt on account of the typhus and cholera in that district and the consequent scarcity of labor, resulting in want of supply of coal and wood for the winter, the message said.

Strange Airship Fires On Launch.

Providence, R.I.—Sweeping down Narragansett Bay with its machine guns wide open and spraying the water with a rain of bullets, an unidentified airplane riddled and nearly sank a launch containing five people, severely wounding a girl passenger and slightly injuring a man.

It says to patronize home industry. Buy from the merchants in your own town.

Dominion Is To Distribute Seed

Forty Thousand Circulars About Planting of Rye being sent out

WINNIPEG, Aug. 15.—Planting of winter rye throughout Southern Saskatchewan and Southern Alberta, where the crops have been a failure this summer is the scheme advocated in 40,000 circulars which will be sent out to farmers and merchants in these districts during the next week, by a committee appointed by local business men.

Arrangements have been made with the Dominion Government for the distribution of the seed and it is estimated that if the scheme is carried out an additional two million bushels of rye will be harvested. Planting of this crop must be done by the first week in September.

Do Not Sow Rye Until Hoppers Are Killed

Otherwise Farmers Will Be Providing Full Pasture for These Pests

"Winter Rye makes fine fall pastures for grasshoppers," says J.M. Freng, agricultural representative, and unless farmers are careful to set out poison against them, great damage will be done. The rye is about the only green thing in the fall months, therefore double prevention must be taken.

Supt. Fairchild, of the Lethbridge experimental farm, and C.R. Noble also strongly advise this precaution. Mr. Noble had the experience of losing quite an acre of Fall rye last season before he found that the hoppers would attack it.

Passing Notes

It is noted that trade in Constantinople is at a standstill. A price will be offered for anyone losing sleep over this.

Heads all over money is getting. A show in New York has just passed its \$1,000,000 mark on box office receipts.

You could hardly call the present styles of the women charity, since charity covers a multitude of sins and the present style do not cover much of anything.

From a Church Notice
Rev. Thompson will preach his farewell sermon on Sunday next. The choir will render an anthem of joy and thanksgiving specially composed for the occasion.

Butter Wrappers with your own name printed on can be had at the Review Office Bow Island, Alta.

Police Court News

Re Percy Colthorpe, pleaderly conduct.

The accused appeared at Winifred at 7 p.m. before W. H. Scott and Geo. Lemus J.P.s, accused was represented by F.O. McKenna of Bow Island.

Information was laid by Mrs. Bertha Warner, the charge read "That Percy Colthorpe of Winifred did on or about the 11th day of August 1921 at or near the residence of the complainant did disturb the peace by shouting and using abusive language to the complainant contrary to Sec. 238 sub. Sec. 1 of the Criminal Code of Canada."

The accused pleaded not guilty.

Evidence was given by Mrs. Warner that the accused came to her place on the evening of the 11th. last. Mr. Warner was away from home. Colthorpe was shouting and said don't I look great here, this is where I belong. I have not been allowed here for three years. Colthorpe appeared to be in an intoxicated condition. I and my children were afraid of him, he had no business on the place, I saw two other men near the house, one was Carl Johnson, did not know the other man, I called Mr. Rankin, school teacher who is staying at my home to get my car and go for the police. I called Johnson and told him I wanted him as a witness, he said if I get Colthorpe away, will you go for the police, I said no, he went away then, Gerald Rankin sworn, corroborated the evidence of complainant and stated he believed Colthorpe was intoxicated.

After hearing the evidence, the accused was found guilty and fined \$10.00 and costs.

Re John Ringman, Contravention of Liquor Act.

Constable Bradner executed a Search Warrant Saturday night the 13th. inst., on the premises of the accused at seven persons known as the old Chinese Restaurant and found a quantity of liquor and real beer in gross of the amount allowed under the Liquor Act. After receiving some information that this man had been selling it, arrested the accused and took him before W. H. Scott J.P. at Winifred at 11 p.m. and laid an information against him, charge that he did unlawfully have or keep in his private dwelling house a quantity of liquor in excess of the amount allowed by the Liquor Act, the said offence being contrary to Sec. 24 A of the Liquor Act 1916 and amendments thereto. The accused pled guilty, as this was a first offence he was fined \$20. and costs or in default of payment forthwith to imprisonment with hard labour for a period of fifteen days in the provincial jail at Lethbridge the accused said that he did not have money enough to pay his fine and could not get it from anyone.

Constable Bradner received a Warrant of Commitment and executed the accused to Lethbridge on the Midnight train on Sunday the 14th. inst. and delivered him over to the night guard at headquarters with property.

WINIFRED

Mrs. Jas. Larsen returned from her excursion trip to Glacier Park Montana Monday August 16th.

Mr. Henry Baker of Whitefish Mont. came down to look after his crop and will remain until Fall.

Miss Rachel Johnston of Redcliff is visiting at the home of Mr. and Mrs. J. Levene and other friends.

Mrs. Christopher's many friends are glad to learn she is convalescing nicely after an acute attack of appendicitis on August 9th. and is now able to be up.

Mrs. Wm. Rodgers and Mrs. H.T. Luther entertained the Ladies Aid Thursday August 11th. the luncheon being excellent and thoroughly enjoyed.

The trial to be held Wednesday August 17th, between Percy Colthorpe and Mrs. W.O. Warner has been withdrawn by mutual agreement.

Mr. Douglas Charter returned from a lengthy visit in the eastern provinces.

Mr. J.C. Foote of Winifred brought the first load of wheat this year to Winifred which graded No. 1 Northern. Mr. W.O. Long of the Farmers Elevator was the purchaser and reported it weighing 102 lbs. to the bushel.

Mr. C. Freeman of Didsbury, Alta. is spending a few weeks in Winifred looking after his interests.

Miss May Phillips and brother John left last week to join their father at Concord, Alta.

Mr. H. C. Cooper and wife of Medicine Hat were Winifred visitors last week.

Mr. and Mrs. Ed Gosselin made a business trip to Medicine Hat August 11th.

Mrs. Frank Powlan has recovered her health and is able to be around as usual.

On Thursday 11th. Mr. W. O. Long had a valuable young milking cow killed on the C.P.R. track and two weeks ago Mr. P.L. Buckner lost a bull the same way.

The German Catholic Church, 15 miles south of Winifred was shifted from its foundation, during the electric storm and heavy gale of wind on August 11th. and all small buildings were blown some distance.

Rye cutting and threshing is finished quickly is not worth mentioning around Winifred district, threshers will all be busy by the middle of week ending August 27th. weather perfect for harvesting and condition slightly improved.

Mr. O.W. Larsen of Grassy Lake spent Sunday at the home of his brother James Larsen August 14th.

Winifred had another easy rain August 15th. the air being full of electricity accompanied by heavy thunder.

The Ladies Aid will meet August 26th. at the Globe Rest Room, the ladies to serve at the time of writing had not been selected.

Local Market Quotations still remain the same Butter 15c. Eggs 35c. week ending August 13th.

Raymond Agricultural School

Facts Concerning Agricultural Education in Alberta

1. Alberta has six Agricultural Schools.

2. Each School is affiliated with the University of Alberta, at Edmonton.

3. The teaching term extends over a period of five months, from November to March inclusive.

4. Courses in Agriculture and Domestic Science are offered to boys and girls respectively.

5. Schools are maintained and operated by the Provincial Dept. of Agriculture.

6. Courses are given free of charge.

7. No entrance examination required.

8. This district is served by the Raymond Provincial School.

9. Those interested may get further information by writing to the Principal, Agricultural School, Raymond, Alberta.

Raymond Provincial School of Agriculture

Offers Free Courses in Agriculture And Domestic Science

To Boys and Girls over 16 years of age

Courses Include The Following Subjects:

Agriculture	Domestic Science
Irrigation	Cooking
Field Husbandry	Foods
Animal Husbandry	Physiology
Veterinary Science	Home Nursing
Farm Mechanics	Sewing
Dairying	Textiles
Poultry	Laundry
Gardening	Household Administration
Chemistry and Physics	English and Arithmetic
Farm Management	Gardening
English and Arithmetic	Dairying
Entomology	Poultry
Civics	

No Tuition Fee

No Entrance Examination

In Session from October 27th. to March 31st.

For Particulars and Application Forms, apply to:

O. S. Longman, B.S.A.
Raymond, Alta.
A. E. Meyer, L. L. B.
Superintendent of Schools,
Department of Agriculture, Edmonton, Alta.

Bow Island

Mrs. Frank Brophy of Vancouver, B.C. who has been visiting her sister Mrs. Savendish, arrived here Thursday morning and is the guest of Mrs. A. Hoaglin.

The Rev. F.R.L. Lacroix of Taber was a visitor to town last Tuesday.

Mrs. Rodgers of Lethbridge is visiting her father Mr. J. Kenny, accompanied by her friend Mrs. Murphy also of Lethbridge.

Miss Mary Little, former teacher at the Good Cheer School is leaving Thursday for Calgary, to take a Normal Course there.

Mrs. J.H. Shearer is visiting friends in Bow Island this week.

The Public School will re-open for the Fall Term on Monday 26th. Aug. all parents desiring of sending their children to school should have them registered during the first week at the big school.

Lime in Agriculture

The use of lime in proper quantity, in proper quality, and at the proper time will prove beneficial to most soils, use otherwise, its effects are reverse. That there may be no lack of knowledge on the subject, there has been issued by the Department of Agriculture at Ottawa a revised edition of a bulletin entitled "Lime in Agriculture" in which the Dominion Chemist, Dr. F.T. Shaw has dealt comprehensively with the subject. From this bulletin it is learned that there are several classes of lime, such as quick lime, burnt lime, caustic lime, stone lime, etc., also that lime stone of excellent quality is to be found in many parts of the country, especially in the East and at some points in British Columbia.

Scarcely exists in Manitoba in the vicinity of lakes Winnipeg and Winnipegosis. Otherwise there is none available on the prairies. What is known as lime kiln refuse is sometimes sold as "Agricultural Lime" but the advice is tendered, that purchases should be made only on analysis as to the percentages of quicklime, carbonate of lime, etc. present. The chief object of the application of lime or carbonate of lime, are neutralization of sourness and the improvement of the moisture and condition of soils. The comparative values of the different kinds are set forth as well as the methods of application. Attention is given to the use and misuse of lime and results from detailed experiments. A table shows the composition of the limestone found in fourteen places in New Brunswick, nine in Quebec, six in British Columbia, nine in Nova Scotia and ten in Ontario, Prince Edward Island is also shown with have deposits.

Dominion Department of Agriculture Publications Branch, Ottawa

Pictures by Wireless from U.S. to France

ANNAPOLIS, Md. Aug. 6.—Transmission of photographs and written documents in facsimile across the ocean by wireless has been accomplished. The successful tests of this epoch-making invention have been made within the last three days at the powerful naval radio station here, a photograph and written message having been sent to Malmsten, the French radio station.

The first test of the invention was the sending of a photograph of the recent Dempsey-Carpenter fight from the Annapolis station to France for reproduction in La Matin, the Paris newspaper.

While the reproduction was said to have been fairly good, it was not as perfect as the engineers wished it to be. So yesterday another test was made. This test was the sending of a facsimile written message from C. Van Ande, managing director of the New York Times, to Le Matin. Word came back that the message was reproduced almost perfectly.

Here's Another Scientific Marvel

DAYTON, O. Aug. 6.—Dayton traffic policeman rubbed their eyes when a miniature automobile sailed past all semaphores. There was not a soul in it. It was a wireless radio automobile controlled by a radio in a car 100 feet behind. The automobile itself contained no kind and is said to be the first of its kind publicly exhibited by the Radio Air Service.

DATES for AUCTION SALES

If you intend to have a Sale, be sure you leave the date at the Bow Island Review for D. M. Garrison - Auctioneer

The patriotic man is loyal to his country and to the community in which he lives. If he is consistent he will give first preference to Canadian-made goods when making purchases. He will also stand loyally by his local dealer and the dealer should show his loyalty to his customers by not charging three prices.

The Weather August 1921

Thursday 11th.	Thunder and lightning, some rain.
Friday 12th.	...Dull and cool.
Saturday 13th.	Hot and sunny.
Sunday 14th.	...Close a little rain.
Monday 15th.	Hot, sunny, heavy rains at night.
Tuesday 16th.	Hot and sunny.
Wednesday 17th.	Sunny and warm.
Thursday 18th.	Bright and cool.

Britain Did Not Want Heligoland

Excerpt of General George Thomas A. Smith

Patronize your local merchant and thereby help to build up your home town and community.

WE hope there is no Mother who thinks she can treat her sick baby without calling in a Physician, or with remedies that she uses for herself.

False claims may kill, but false claims can never restore your child.

For over thirty years Fletcher's Castoria has been aiding in the reduction of the deaths among infants as Mothers have become more and more acquainted with it. Always keep it in the house.

Fletcher's CASTORIA

A doctor in the house all the time would be a good idea. Yet you can't afford to keep a doctor in the family to keep baby well or prevent sickness. But you can do almost the same thing by having at hand a bottle of Fletcher's Castorin, because it is a wonderful remedy for indigestion, colic, feverishness, fretfulness and all the other disorders that result from common ailments that babies have.

If you love your baby, you know how sweet it is to be able to help baby when trouble comes. You cannot always call upon a doctor. But doctors have nothing but good to say of Fletcher's Castoria, because they know that it can only do good - that it can't do any harm - and they wouldn't want you to use for baby a remedy that you would

World Happenings Briefly Told

Chicago is experimenting with a wireless telephone system connecting all fire and police stations.

Transportation rates on livestock on the Pacific Great Eastern Railway will be reduced about 35 per cent. immediately.

For the first time in many years the water in Lake Superior is warm enough to permit comfortable bathing at Duluth.

Germany owed the U.S. up to April 20 last \$240,744,519 for maintenance of American troops on the Rhine.

"Silver Threads Among the Gold" ballad, with half a century of popularity, is still earning \$5,000 a year in royalties.

Russia's Melbourne cable says it is officially stated that Australia will probably send a delegation to the next meeting of the League of Nations.

Mrs. Wilbur Smith, 84, of Mantua, N.J., is cutting her third set of teeth.

A pending plan for inflicting the Government's liquor prescription blanks was decided at Boston.

The sum of \$3,875 has been collected in Port Arthur for infraction of the Ontario Temperance Act and other prohibitory measures since the closing of the bars in 1916.

Lechorg, three hundred feet high and seven hundred feet long were seen off the Grand Banks of Newfoundland by passengers on the steamship Golumbia which arrived at New York recently.

Twenty-four people have been reported drowned in serious floods which are raging throughout the prefecture of Yamagata. Five thousand houses have been submerged and forty bridges destroyed by the floods.

The Dominion Government seaplane "D.S.", stationed at Victoria, B.C., Lake Winnipeg, was completely destroyed by fire. Four men on it had a narrow escape before being rescued by campers.

Japan has postponed its promised evacuation of Siberia until stability is restored, says a wireless message received from China, the seat of government of the Far Eastern republic of Siberia.

A vapor waisted Smith and another whose name is unknown, are believed to have been lost in the rapids of Black River in the Arctic Circle.

Cadroz, trapper from Ramapo House, brought the news of the disappearance of the two men when he came to Dawson.

It is not only supremely important that the "masses on whom Government depends" be educated, but also that they should be specially versed in the historical lessons of their own and other countries. No other subject is more educative; none is more necessary to the civic life of today—in most of the countries of England history is still abominably taught. It is really of incalculable importance for the future of this country.—The London Daily Chronicle.

World's Deepest Lake.
The deepest lake in the world is Lake Baikal, in Siberia, its area of over 9,000 square miles being equal to that of Lake Erie in superficial extent. Its average depth of between 4,000 and 4,500 feet makes the volume of its waters almost equal to that of the Lake Superior, and although its surface is 515 feet above the sea level its bottom is nearly 3,000 feet below it.

Will Sell Horses After All.
It was announced that the War Office is negotiating for the sale of the 30,000 army horses in Mesopotamia, which were to be destroyed owing to the high cost of bringing them home.

The height of the Cathedral at Cologne, Germany, is 515 feet above the floor and 525 feet above the street.

A 35x5 cord tire for automobiles contains 30,000 feet of cord or over five and a half miles.

After you know some people well you are apt to regret the politeness you wasted on them.

Not as Wise as the Squirrels

The Bohemian Lack of Foresight in Providing for the Future.

What Secretary Hughes has described as the progressive impoverishment of the masses of Russia has continued, and they have arrived at the present appalling tragedy.

The consequences of the famine have been the most terrible that have ever flowed from the conditions that were artificially established. Lenin's policy was not up to the level of that of the squirrels which store against future need.

Lack of rain precipitated the famine, but its cause lies elsewhere. The consequences of the famine are the verge of extinction, and there was no reserve when nature turned slack—From the New York Tribune.

Russian Predicts A World Triumvirate
Germany, Russia and United States to Form It.

The world situation of the future has been pictured as Germany, Russia and the United States. Serge Makoff, one of the leaders of the revolution of 1905 and now an exile in Paris made the prediction in an interview.

"I am anything but an admirer of German ideas," Makoff declared, "but I can see that the natural trend of events will bring Germany to the side of Russia and America as a commercial and military ally."

Makoff's theory is given credence in the Russian column of 100,000 here.

Germany is Russia's natural ally on the west, Makoff said, because of their mutual interests, Russia, he declared, is America's ally in the east because she is the only power that can cooperate with the United States without Pacific without a clash of interests.

Germany is Russia's natural ally on the west, Makoff said, because of their mutual interests, Russia, he declared, is America's ally in the east because she is the only power that can cooperate with the United States without Pacific without a clash of interests.

Alberta Ships Horses

Trinidad Business Firm Ordered Then For Driving Purposes.

A trial shipment of Alberta horses is now on the way to Trinidad, where they are being sent on an order from a business firm there which wants them for driving purposes. Twenty-three animals, of small build, standing from fourteen to fifteen hands in height and weighing from 700 to 1,000 lbs., bought in the vicinity of Calgary, are being shipped as a first consignment, and a second lot to make up a total of fifty will follow later.

The shipment is in charge of J. D. Smith, of the department of agriculture. He will ship from Halifax by one of the West India steamer lines, and after delivering the animals to their buyers in Trinidad will spend some time looking into the future value of the horses and at other points in the Indies. If Mr. Smith's investigations are correct, it is likely that other shipments from Alberta will be made in the near future.

That Dry Cough Is Bronchitis
If neglected, it will weaken the throat and perhaps reach the lungs. Nothing can help you quickly than the healing soothing vapor of Catarrhine.

Every congested spot is healed, irritation is soothed away, phlegm and secretions are cleaned off. Genuine, scientific preparation. Sold everywhere in three sizes, 25c, 50c and one dollar for a complete two months' treatment. Prepared by the Catarrhine Co., Montreal.

Australia Gets Strange Weather
Snowstorm Is Unusual Experience for People of Antipodes.

A Reuter cable from Melbourne says that the entire state of Victoria has been covered by a heavy snowfall, followed by a great deal of rain. Melbourne, where such conditions are most unusual. Several ocean vessels are overdue and there is some anxiety on account of coast vessels.

Lieut. Parer, of the Australian Air Force, who, with two companions, has been attempting a flight around Australia, ran into a blinding snowstorm and was obliged to descend.

A Divorce Granted
After many years of patient suffering, you can be divorced from your wife. You can get rid of them completely by applying to Dr. J. C. Williams. This wonderful old remedy acts in a subtle and never fails. Refuse a substitute, and remember "Dr. Williams' Pink Pills" is the only remedy. 25c everywhere.

1920 Fur Catch
Muskat Pelts Worth Two Millions

During the hunting season of 1920, fur valued at more than two million dollars were sold by Saskatchewan trappers.

Muskat pelts brought the heaviest returns for the Game Commission of the province. Sale of these amounted to \$1,000,000. They sold at \$2 a pelt. Coyote skins were the next highest priced on the sale list. More than 18,000 of these were sold, bringing a revenue of \$34,716.

One of the surprising features of the statement is that which deals with skunk pelts. It shows that 9,074 of these were sold for \$5 each, bringing returns to trappers amounting to \$45,770.

Other animals which produced good returns for hunters were: Minks, martens, beavers, black and silver foxes, weasels, badgers and Wolverines.

Mr. Bradshaw says: "The most noticeable result is that of muskrats, there being 280,238 pelts, less than were purchased a year before. Beavers also down 500 skins, showing an increase of 4,000, and weasels display a remarkable increase of 25,000. All varieties of furs show a slight decrease, while the remaining kinds of fur buyers show only slight variations from the catch of 1919."

Official Title of Governor-General.
Canada's new governor-general will bear the following official title: General His Excellency Julian H. Knudsen, Governor-General and Commander-in-Chief of the Dominion of Canada.

Of the inhabitants of Mexico less than one in three can read or write.

Fuel Control Unlikely
Cabinet Considers Situation Calls For No Action.

Fuel control by the Dominion Government during the coming winter is unlikely. According to Sir George Foster, the question of fuel control has been under consideration, but apparently the situation calls for no action by the federal authorities.

Sir George pointed out that the Provincial Governments were in a position to appoint fuel controllers if they so desired. Conditions during the war were very different from those prevailing at present, he said, and now there was a supply of fuel for those who wished to purchase it.

The Need of Fresh Air.
Every time we breathe we draw thirty cubic inches of air into our lungs, supposing that we take fifteen breaths a minute for the twenty-four hours of the day, we use no less than 648,000 cubic inches of air, which would weigh over thirty pounds.

One day's supply of air for one human being would be sufficient to fill 1125 two-gallon cans; a year's supply would weigh more than five tons.

From these figures it may be seen how necessary it is to keep windows open so that there may be a constant supply of fresh air.

Working the Censor.
A schoolgirl was required to write two hundred words about a motor car. She submitted the following: "My uncle bought a motor car. He was out riding in the country when it bumped going up a hill. The other 180 words are what my uncle said when he was walking back to town, but I know you wouldn't want to read them."—London Opinion.

Between Girls.

Burdett News

Mr. and Mrs. Geo. Robinson, and little son left Taber on Sunday night the 7th, August for a three month visit to Wakefield, Yorkshire, Eng., where they will visit Mr. Robinson's parents.

Mr. Watson of Grassy Lake left for Calgary last Sunday night.

Burdett was visited with one of the heaviest rains in years, last Monday night and early Tuesday morning fully three inches of water fell, this will help some of the late crops, garden etc. It will also help to form reserve moisture for next year's crop. If it was not for the presence of grasshoppers, it would be an excellent time to plant Fall Rye.

Notwithstanding the light crops, and crop failures of the past four years, the settlers in the Burdett district feel confident that this country will redeem itself, if only their creditors will not push them for all their money this fall, if they do insist in getting all their money it will mean that a large percentage of the farmers will be down and out no matter how good their intentions are.

Bishop and Mrs. Llewellyn, Mr. and Mrs. D.M. Hall, J.F. and Mrs. Hamilton and others attended the L.D.S. Church Conference held at Raymond last Saturday August 14th.

Owing to the heavy rains, threshing operations are suspended for a few days, but rain is always welcome.

A.H. Rygg of the Mercantile Store was expected home, last Tuesday.

C. E. Beaudette is busy heading John Donaldson's crop.

A. Hamilton has threshed his crop of Rye it averaged about 8 bushels per acre.

Mr. C.T. McKinnon and family returned from their holidays last Sunday and Mr. Bill who has been the collecting manager at the Standard Bank, during Mr. McKinnon's absence returned home this week.

Mr. Job Llewellyn Jr. has taken over the store lately run by Geo. Robinson under the name of the Burdett Cash Store but the store is being re-named by Mr. Llewellyn, and will be known as the Farmers' Cash Store.

The Public will be able to buy heaps of Bargains during the Sale that Mr. Llewellyn intends to hold.

Look out for the Sale Posters.

Dr. Clancy of Medicine Hat, motored through to Burdett on Saturday last.

LOST

Lost one nickel automobile head light rim and More Light Lens. Lost between Bow Island and Burdett last Friday night 12th. August.

Reward for Return to Geo. Lomas Burdett-Alta.

Messrs. George Lomas, Alex. Hamilton, W.D. Anderson, C.W. Henderson, J. Rasmussen, R.H. Ostum and Whitley Foster were visitors to Bow Island last Tuesday.

Rev. Percy Johnson of Burdett and friends motored to Medicine Hat last week end.

Law Changed After
Millionaire is sent
Up for Trial Charge

CALGARY, Aug. 15.—The Alberta today is responsible for the following story:

Richard Secord, an Edmonton millionaire, a prominent politician, an old timer, with very great influence, was committed for trial last April on the serious charge of subornation of perjury in connection with the obtaining of land under scrip. The offence is a serious one: the maximum penalty life imprisonment.

At the recent session of the Dominion parliament, some time after Secord was committed of the crime and committed for trial, an Amendment was added to section 1140 of the Criminal Code of Canada, at the instigation of the Dominion senate, and on the recommendation of Hon. C.J. Doherty, minister of justice, which makes the section now read as follows:

"1140. No prosecution for an offence against this act, or actions for penalties or forfeitures shall be commenced:

"(a) After the expiration of three years from the time of its commission if such offence be—

"(4) Any offence relating to or arising out of the location of land which was paid for in whole or in part by scrip, or was granted upon the certificates issued to half-breeds in connection with the extinguishment of Indian title."

The latter paragraph is the Amendment which was added. There are other

Farmers! Make Money By Raising Rye

Better To Have a Crop of
Rye Than No Crop
of Wheat

A movement is now on foot to encourage the production of Winter Rye in what is known as the dry belt of Southern Alberta and Southern Saskatchewan. Quite a large acreage was sown last fall and it has proven a great success. The raising of Rye in this part of Western Canada may be the means of solving the problem in this dry country. It is well known that Rye does not require as much moisture as other grains and produces about the same amount per acre as wheat does under favorable conditions.

we would like to see this cereal given a fair trial and we hope to see a large acreage sown with this grain this fall.

There is a large market for Rye throughout the west and several million bushels could easily be disposed of at a price about 25 cents less than wheat.

A good crop of Rye is far better than no crop of wheat and if it can be successfully grown in this section it would soon put the farmers in this country on a good financial basis.

Rye straw also makes a good feed for stock and will produce feed after the grain has been cut. It will also go a long way in solving the weed problem, as it will get a start before the weeds do.

The farmers in this section should prepare a good piece of their farm and plant it to Fall Rye this fall, and see what the result will be. It is almost a certainty that it will do better than wheat has done in this section in the past five years.
